1. Purpose

The purpose of this policy is to:

- set out a framework to ensure students with disabilities can fully participate, where practicable, in the Italia Conti's academic and social programmes.
- ensure that the Italia Conti complies with its legal requirements under the Equalities Act 2010.
- This policy will apply to direct applicants on a BA, CertHE, or BA Top-Up course.

The policy is designed to ensure that our disabled students receive the support and adjustments that they require in a fair and timely manner and are not unreasonably disadvantaged. The policy seeks to encourage and promote equality of opportunity and fair access and is a positive step towards inclusivity. Italia Conti is committed to the principles of inclusion and equal opportunities for all. This document outlines our policy for supporting students with disabilities. The Senior Leadership Team will ensure that appropriate provision will be made for learners with Disabilities via the admissions process and subsequent teaching and learning environment.

2. Context

The Equality Act 2010 sets out to consolidate and replace previous legislation with respect to the nine protected characteristics, one of which is disability. Within the context of disability, the Act addresses the types of direct and indirect discrimination that may occur within an institution, including harassment, victimisation and failing to put in place reasonable adjustments.

3. Definitions of Disability

A disability is defined as a physical or mental impairment that is likely to have a substantial and long-term effect on an individual's ability to carry out day to day activities. "Long term" is defined as a condition that has lasted for a year and a day, a condition that is likely to last for a year and a day or a condition that will last for the duration of the individual's lifetime.

4. Principles

Italia Conti aims to create an inclusive environment that enables disabled students to fully participate in an HE experience and, where reasonably practicable, one that is comparable to non-disabled students. Italia Conti will, where possible, endeavour to exceed the overarching principles of the Office for Students (OFS) and the Quality Assurance Agency requirements.

In order to support these Italia Conti will:

- encourage applications from prospective students who have a disability;
- make reasonable efforts to contact those applicants who have declared a disability in order to discuss their needs;
- inform students about the Disabled Student's Allowance (DSA) during their induction meeting and within their Student Handbook. We will also support them in making an application, should they wish to do so.

- eliminate unlawful discrimination, harassment, and victimisation;
- promote equality of opportunity and foster good relations between disabled people and others;
- take account of a disabled person's disability, which may involve treating a disabled person more favourably if this results in their being treated fairly;
- ensure that reasonable anticipatory adjustments are considered and implemented;
- take anticipatory action to enhance the accessibility of our facilities and services;
- promote an inclusive, safe, and supportive environment for all students, including those with disabilities to study within;
- provide training and support for staff and managers to be able to promote disability awareness.

5. Disclosure and Confidentiality

Italia Conti will endeavour to create an environment that encourages disclosure by implementing the following actions:

- all information relating to disclosure of a disability will be treated as sensitive information, as laid down by the Italia Conti's *Data Protection Policy*. Students contact Italia Conti if they would like to disclose only to certain members of staff, e.g., the SEN Tutor, the Welfare Team.
- provide opportunities to disclosure before and after enrolment, and throughout the duration of the course.

Note: where students decide that they do not wish to disclose, this may affect the type of support that can be provided.

5. Teaching and Learning

Italia Conti will endeavour to provide appropriate reasonable adjustments depending on the individual's needs, this will include assisting a student to obtain relevant evidence so that we can provide appropriate support and address any issues relating to academic or professional competency standards. Once the level of need has been established, and with permission, information can be disseminated to relevant departments to arrange support.

This will be done by:

- a Teaching and Learning Support Requirement (TLSR) – which will be circulated to relevant staff, advising on appropriate adjustments. (This is created by UEL.)
- a Student Support Plan (SSP) which contains 'student views' and specific adjustments that are relevant for Italia Conti students. (This is created by the SEN tutor.)

Italia Conti will also endeavour to consider the requirements of disabled students in the following areas:

- inclusive and accessible programme design;
- that, where practicable, all learning and teaching materials are accessible as standard;
- that, where practicable, appropriate exam adjustments are implemented within the constraints of Italia Conti policy, to ensure that assessment and examination practices should provide the same opportunities as non-disabled peers.
